## **INSTRUCTIONS**

IMPORTANT: Facebook ads are a GREAT way to drive traffic. Unfortunately, if you've never promoted an affiliate product using Facebook ads before, it can prove to be a little challenging.

### **Here's what we suggest**

1. If you've NEVER marketed using Facebook ads before [GET THIS COURSE](#) so that you can learn the proper way to do it.
2. When promoting using Facebook ads, it is necessary to have some sort of "buffer" between the ads themselves and the affiliate page in order to get your campaigns approved.

To protect your facebook account and our affiliate program, NEVER send traffic from Facebook directly to your Clickbank Affiliate link (Facebook will disable your ads, and possibly even your account. Instead, send Facebook traffic to your own opt in page first, and THEN send your affiliate link via FOLLOW-UP MESSAGES. Even if you try to have someone opt-in and then you redirect them to your affiliate link, Facebook still doesn't like this.

3. If you're planning to market on Facebook, we suggest targeting people with the following criteria
  - Over the age of 30
  - Interests: Affiliate Marketing, Clickbank, Internet Marketing (and other similar interests)
  - Countries: USA, Canada, Australia, UK, New Zealand, & most of Europe. Please note that Clickbank does not accept payments from many countries, so if you market to people living in those countries, you're just wasting your efforts

# Facebook Ad Swipe #1 – Pizza System

This ad swipe should be used with the **“Easy as Ordering a Pizza Sales Video”** funnel

Let me ask you a silly question...

Can you order a Pizza?

I know, it's a dumb question because ordering a pizza is literally one of the easiest things in the world to do.

You just pick up the phone, tell them how many (and what kind) of pizzas you want, and then tell them where to send the pizzas.

Well...

What if I told you that there was a system on the internet that worked the same way.

But instead of ordering pizza...

You're ordering traffic (website visitors)

You tell the system where you want your website visitors to go, and when the visitors hit your pre-made web-page, the system follows up and makes sales for you.

I know, sounds crazy right?

Well, it's not...

Don't believe me?

Click the link and see for yourself

## Facebook Ad Swipe #2 – Pizza System

This ad swipe should be used with the **“Easy as Ordering a Pizza Sales Video”** funnel

What can you do in 30 Minutes?

Well according to one famous pizza chain, you could order a pizza and have it delivered to your house.

And while pizza is awesome, it won't help you create an amazing life for yourself and the people you love.

But what if, in that same 30 minutes, instead of ordering a pizza, you could order website visitors...

And what if those website visitors could go to a system that makes sales FOR YOU...

I don't know about you...

But I'd much rather order website visitor that could make me commissions, than order a pizza.

Especially if they both take about the same amount of time.

Interested...

# Facebook Ad Swipe #3 – Pizza System

This ad swipe should be used with the **“Easy as Ordering a Pizza Sales Video”** funnel

I remember back when I was a kid, there was a famous pizza chain commercial that would end with their jingle,

“Call 662-5555”

I would sing it all the time...

“Call 662-5555”

Here I am, 30 years later....I remember that number just like it was yesterday.

All you had to do was dial that number, tell them what you wanted then.....

BAM

Your pizza would show up at your doorstep 30 minutes later

It was simple.

REALLY simple

That's how simple my new affiliate marketing system is.

You simply pick up the phone, order your traffic and...

BAM

Sales start coming right into your inbox.

It's just that simple.

If you can order a pizza, you can start earning commissions with this system
